DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by USPN 4,817,241 to Koch et al. Koch et al discloses an adjustable hinge for engagement between a door (1) and a wall (2) comprising;

a first engaging fastener for securement to the door or frame (Fig. 9); and an adjustable hinge portion (25) adjustably engageable with the first engaging fastener for enabling adjustment of the hinge portion relative to the door or frame while enabling the first engaging fastener to remain secured to the door or frame.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In particular, Soss, Goldsmith et al and Youngdale et al all disclose hinge devices which may be used alone or used in combination to meet the limitations of applicant's claim(s).
